Icebreaker and Overview
Decision Making Process
Groundrules

Revisiting the Strategic Plan
Divide into four groups for each quadrant of strategic plan (external, internal, diversity, evidence-based):
- What is the work of POD in relation to your goal? (10-15 min)
- What is going well and what evidence do we have that it’s going well?
- Where do we need to be doing more?

   External:
Came up with 3 pyramids: To whom are we reaching out externally; External partnerships; Difference between POD and the field of educational development

Diversity:
Different definitions of diversity; How do we evaluate the impact of our efforts?; How do we not just reach out to diverse groups, but allow them to shape who we are? Mutual mentoring; How do we retain members? How do we define ourselves externally so that others understand who we are and that we're worth belonging to; How do we reach out to different groups and still maintain our identity.

Evidence-based practice:
Define range of activities; Producing new evidence; Using existing evidence

Internal:
Services to members; Define committees and SIGs; Increase transparency of conference committee work
