The GPPD SIG is pleased to announce the recipients of the 2018 Career Development Grant. We look forward to collaborating with these individuals at the conference including our GPPD Networking Lunch, the GPPD Showcase, and our Business Meeting. Follow us on Twitter at @PODGPPD or on Facebook at POD GPPD to learn about our conference activities, share resources relevant to grads and postdocs as well as the people who serve them, and see job postings.

The GPPD SIG Career Development Grant reduces the registration cost to $50 for graduate students, professional students, and postdoctoral scholars. The 15 recipients of the 2018 GPPD SIG Career Development Grant were chosen based on evidence of their teaching effectiveness, commitment to teacher development, relevance of the POD conference to their career plans, commitment to inclusion, and diversity of their perspectives and experiences within POD.

- Alexis Adams, Carnegie Mellon University, Department of Modern Languages- Second Language Acquisition, Graduate Student (Ph.D.)
